The 26th Annual Meeting

of the Israeli Society for Research, Prevention
and Treatment of Atherosclerosis

08-10.09.2022

Pastoral Kfar Blum Hotel

Dear Colleagues,

We would like to welcome you to join the 26th Annual Meeting of the Israeli Society for Research, Prevention and Treatment of Atherosclerosis, that will take place on September 8-10, 2022, in Kfar Blum, Israel.

The aim of this meeting is to provide a great opportunity for scientific knowledge exchange by bringing together leading experts in the field of atherosclerosis, lipids, obesity and diabetes. In addition this meeting has a special role in promoting basic and clinical research in Israel. A major goal of our conference is to encourage young scientists to present their new results from the frontiers of basic, as well as clinical science, and to help them to get an overview of fields they are involved in. Young investigators will participate in the competition for young investigator oral and poster awards, which include a financial reward.

The scientific topics covered during the meeting will include:

Life style interventions, Risk modification, and Cardiac rehabilitation
Lipid and lipoproteins, research and clinical approach
Familial hypercholesterolemia and atherosclerosis genetic risk
Lipoprotein, oxidation and inflammation.
Plaque progression and regression
Gender - related coronary prevention
Extreme life style modification: ketogenic diets pros and cons.
High risk populations, chronic renal failure, DM and endocrinopathies

Abstract submission is open.

Please send your abstract via Email to: e.tareshet@gmail.com

The final date for abstract submission is July 17th 2022

More information will be posted at the society website: www.ias.org.il

We look forward to welcoming you in Kfar Blum
